## **MARRIAGES:**

Couples planning to be married must contact a priest well in advance of the wedding date. They must also receive personal preparation for entering marriage.

If either party has previously gone through any form of civil or religious marriage with another person, the priest is not permitted to set a date for the wedding until the Bishop's office has been consulted.

It should be noted that Catholics, in order to marry validly, must marry before the parish priest or his delegate and two witnesses. A civil marriage or a marriage before a non-Catholic minister is not a valid marriage. Couples in such "marriages" should contact a priest to have the situation rectified.

### AIR CONDITIONING UPDATE

**Work on the air conditioner has finally started!** In September of last year, someone used a hack saw to cut out some of the copper pipes from the a/c units behind the church. We had the police and insurance company involved right away. By January we had a contract in place for \$32,000,

with work to start in March. At that time, however, the contractor found that someone had tried to steal more of the copper. Although the value of the copper was minimal, this attempt allowed water to seep into the system, increasing the risk that the compressor would quickly burn out if we simply replaced the obviously damaged items. So the original contractor backed out. With the help of the insurance company, we contacted the original manufacturer, who agreed to take on the job. The total cost of the project is now \$54,000. The insurance company will pay \$53,000 and we are responsible for the \$1,000 deductible. Security has been increased with the installation of a camera that provides several days of records which can be given to police, should something happen. We have also placed a sign saying that there is a security camera in place. Let us pray no one tries this again.
