## **MARRIAGES:**

Couples planning to be married must contact a priest well in advance of the wedding date. They must also receive personal preparation for entering marriage.

If either party has previously gone through any form of civil or religious marriage with another person, the priest is not permitted to set a date for the wedding until the Bishop's office has been consulted.

It should be noted that Catholics, in order to marry validly, must marry before the parish priest or his delegate and two witnesses. A civil marriage or a marriage before a non-Catholic minister is not a valid marriage. Couples in such "marriages" should contact a priest to have the situation rectified.

**2015 Offertory Envelopes are available at the rectory. new parishioners can register by taking and using envelopes.**

## BUILDING UPDATES

1) **The window near the back of the church** was broken by vandals one week after Easter. The insurance company has been working on getting someone who could match the glass exactly to fix the window. The good news is that they have finally found a contractor to do it. The bad news is that it will take about eight weeks to get the window manufactured and probably another two weeks to get it installed. The actual cost of the project is over \$8,000. The parish will be responsible for \$1,000.

2) We have signed a contract to upgrade **the control system on the church's heating and air-conditioning system**. This will make the system more energy efficient through the use of variable speed fan motors and CO2 detectors. And it will make it much easier to change the programming for special events. The cost of this project is about \$24,000. But we should be able to recoup this in a few years because the cost of electricity to run the church and rectory is currently about \$30,000 and the cost of a kilowatt is expected to go up significantly in the future. The project is funded by your contributions to the Family of Faith campaign.

3) **The lights in front of the church** have not been working since about February. There is nothing wrong with the light bulbs. The problem is that a wire under the sidewalk has ceased to work. The electricians who determined the source of the problem in the winter told us to wait until the warm weather before trying to fix it, because it is very difficult and costly to pull wire and dig through frozen ground. Now that the warm weather is here, we have contacted the electricians and they should be here in the coming weeks to fix the lights.
