### THE SACRED LITURGY THIS WEEK

**Wednesday, February 22:** *The feast of the Chair of Saint Peter at Rome has been celebrated from the early days of the Christian era and celebrates the unity of the Church. It brings to mind the mission of teacher and pastor conferred by Christ on Peter that continues in an unbroken line down to the present Pope.*

**Thursday, February 23:** *St. Polycarp, bishop of Smyrna (modern, Turkey), disciple of St. John the Apostle and friend of St. Ignatius of Antioch is one of the Apostolic Fathers of the early Church. Only one of his many letters has been preserved, the one he wrote to the Church of Philippi in Macedonia. In 156, at age 86, St Polycarp was martyred by burning in Smyrna.*

### JOIN THE "CALL FOR CONSCIENCE"

**FEBRUARY 6 – MARCH 31, 2017**

Now that Canada has legalized assisted suicide/euthanasia, did you know that doctors in Ontario are forced to provide direct referrals for patients seeking to end their lives? Doctors who object feel a direct referral is akin to being an accomplice to assisted suicide. No foreign jurisdiction in the world that has legalized euthanasia/assisted suicide has forced health care workers or facilities to act against their conscience. Visit [www.CanadiansforConscience.ca](http://www.CanadiansforConscience.ca) to learn more, join the "Call for Conscience" and to write directly to your Member of Provincial Parliament asking them to protect conscience rights.

### COALITION FOR HEALTHCARE AND CONSCIENCE

*...represents a group of like-minded organizations, including 5,000 physicians across Canada, as well as more than 110 healthcare facilities representing 18,000 care beds and 60,000 staff. We are committed to protecting conscience rights for health practitioners and facilities.*

The College of Physicians and Surgeons of Ontario has passed policies requiring physicians to refer for, and in some cases perform, physician-assisted suicide, even if those procedures go against their conscience. The proposed Bill 84 outlines the process for physician-assisted suicide in Ontario but does not currently contain any conscience protections for doctors or healthcare providers in Ontario. Forced participation violates constitutional rights; forcing healthcare providers to violate their conscience rights directly impedes their constitutional right to freedom of conscience and religion guaranteed under the Charter (Section 2). Forced participation is a form of discrimination. Requiring healthcare workers to participate in assisted death as a condition of employment is a form of discrimination and is subject to a section 15 Charter challenge. It also violates the spirit of the conscience protections enshrined in Bill C-14.

If these policies enacted at the provincial level remain in place, many healthcare providers and facilities will be unable to continue to serve their patients. Provincial policies and the legislation introduced in Ontario must protect healthcare professionals against being forced to perform or refer for these procedures or being discriminated against because of their conscientious objection. They must also ensure that no facility will be coerced to provide these services against their organizational values. Provincial regulations on physician-assisted death must have conscience protection for healthcare workers, and facilities like hospitals and nursing homes.

**Canadians for Conscience propose that: the provincial government create a process allowing patients to directly access a care coordination service which would provide access to a range of services for the patient, including assessments for physician-assisted suicide or euthanasia.**

The patient would then have the option of directly accessing this service or initiating a complete transfer of care to another physician. Physicians would therefore not have to refer. Patients who request this procedure at a facility that does not provide it could be transferred to another facility.

The proposal balances the rights of both patient and doctor, ensuring all rights are respected and no patient is abandoned. It respects the conscience rights of doctors and healthcare facilities, without interfering with the patient's choice for assisted death.
