Your kind support will assist all missionaries across the world. It will help new churches to grow and be strong and vital faith communities. Please continue to pray for all those who serve in mission countries, and be generous in your support of their work.

Congratulations

SEEING CHRIST IN THE POOR

“The social message of the gospel must not be considered a theory, but above all else a basis and a motivation for action. Inspired by this message, some of the first Christians distributed their goods to the poor, bearing witness to the fact that, despite different social origins, it was possible for people to live together in peace and harmony. Through the power of the gospel, down the centuries monks tilled the land, men and women religious founded hospitals and shelters for the poor, confraternities as well as individual men and women of all states of life devoted themselves to the needy and those on the margins of society, convinced as they were that Christ's words “as you did it to one of the least of these my brethren, you did it to me” (Matthew 25:40) were not intended to remain a pious wish, but were meant to become a concrete life commitment.

Today more than ever, the Church is aware that her social message will gain credibility more immediately from the *witness of actions* than as a result of its internal logic and consistency. This awareness is also a source of her preferential option for the poor, which is never exclusive or discriminatory towards other groups.

This option is not limited to material poverty, since it is well known that there are many other forms of poverty, especially in modern society – not only economic but cultural and spiritual poverty as well. The Church's love for the poor, which is essential for her and a part of her constant tradition, impels her to give attention to a world in which poverty is threatening to assume massive proportions in spite of technological and economic progress. In the countries of the West, different forms of poverty are being experienced by groups which live on the margins of society, by the elderly and the sick, by the victims of consumerism, and even more immediately by so many refugees and migrants. In the developing countries, tragic crises loom on the horizon unless internationally coordinated measures are taken before it is too late.”
