Parenting Tip of the Month: The best way to assist your children to thrive is to give them a good sense of security and self-worth. These feelings are best accomplished when parents understand their role as leaders of their families: they set the rules, make sure the rules are followed and discipline when necessary. In order to assure good balance in their family role as leaders, parents need to spend quality time with their children, which helps their children know they are loved, valued and important. Parents need to be an authoritative figure in their children's lives, which means they can't always be the fun friend, but they can love their children enough to help them become healthy and well-functioning adults!

Marriage Tip of the Month: No marriage or relationship remains stagnant – life changes and experiences that occur on a day to day basis mold and shape us and therefore, our relationships. Now and then it is good to stop and check the new you and see how you have changed: how have these changes impacted your relationship with those you love, especially your spouse? Are you communicating well with your spouse, continuing to be open and honest about your needs and wants and to finding out what theirs might be? Marriage is a work in progress which thrives when we remember to do a checkup now and then! (From: Teresa Hartnett, Family Ministry Office, 905-528-7988 ext. 2250)
