**Parenting Tip of the Month:** Spending quality time together will pay great dividends to all involved, especially our children. Time together allows for positive interaction, the ability to learn about each other and the chance to build strong bonds and memories. A great starting point is a shared family meal, but reading together, playing a board game, or working on a puzzle together are but a few of the many ways we can build connections. The result will be higher self-esteem for children, a greater cohesiveness in the family unit and the desire for more time as a family. Try it, you won't regret it!

**Marriage Tip of the Month:** The gift of self promised during our wedding vows is essential to put into action during moments of struggle. When a spouse's actions cause anger, sadness or disappointment, we must try to look past the action or words and see the person you love. Instead of responding negatively in the moment, try to understand what has caused this situation and propose a resolution that will work for both of you and for your relationship. In our most vulnerable moments we have a chance to show our greatest love by responding as we should, as opposed to how we feel.
