ISSUE	FACT	WHAT YOU CAN DO
Electricity overconsumption and it's effects on climate change	Earth Hour is an annual, global event that began in 2007 and is organized by the World Wildlife Fund. Its purpose is to raise awareness about climate change and sustainability. During this time, businesses and individuals are asked to switch off & unplug their non-essential lights and electronic devices for one hour. Earth Hour takes place on Mar. 26, 2011 from 8:30pm to 9:30pm.	Switch off your computers/ phones/televisions, or take a walk outside and see the difference "lights off" can make—the possibilities are infinite! This year, we are asked to "go beyond the hour," and think about how we can commit to a change in our lives. So, take time to think about buying locally, conserving energy, and other ways to live in a more sustainable way everyday.
