Parenting Tip: Adults have experienced the growth and ultimate explosion of the internet/social media world, but for children it is the world in which they have grown. While it contributes to learning, we cannot be oblivious to its real dangers. Experts agree that most children have their first view of pornography between the ages of 8 and 11 yrs. of age; they usually stumble on it by accident on the internet. It is recommended that, in order to protect them, children under the age of 16 should not have unsupervised access to the internet - this includes on any computer, tablet, phone, TV, or gaming system. Being naive about what your children are seeing will hurt them, so protect them. Talk about what is good and what is not and why. Give them the tools they need so that they will not be negatively impacted by the media world. (Family Ministry Office, 905-528-7988 ext. 2250)

Marriage Tip: Time may be one of the most difficult entities to manage! Quality and quantity matter when it comes to any relationship, including marriage. The more time a couple spend together, in close physical proximity, the better the levels of intimacy they share. Plan time

together, just the two of you, whether it be an early or late night coffee without the kids, dinner out, or some time away, being together matters! So, take the time to spend time together and you will reap the benefits. (Family Ministry Office, 905-528-7988 ext. 2250)
