Creation Care

In February 2021, I took another 34.5 pounds of used batteries to the Mountain Waste Transfer Station. This translates to 1090.5 pounds of used batteries collected since the Spring of 2013 by the Green Team. Battery collection over the past year has been down. But, given these Covid-19 times, 34.5 pounds of batteries collected since the last drop off to the Waste Transfer Station (on February 13, 2020) isn't bad.

Batteries contain toxic metals such as lithium, cadmium, nickel, lead and mercury. When dumped in landfills they can burst, poisoning soil and ground water, damaging or killing surrounding plant and animal life and possibly our drinking water supply. You may bring your dead batteries to church during the following two weekends and drop them in the green bins in the narthex. The Green Team will continue to safely dispose of them. - [Michael J. Pollard](#)

Share Love, Share Lent: Strengthening vulnerable communities.

Did you know that Development and Peace supports a school for peasant filmmakers in Colombia?

This week in the *Share Love, Share Lent* campaign, discover the creative ways in which we assist communities in speaking for and taking charge of their own development.

In keeping with the Catholic Social Teaching principle of participation, let your Lenten journey make a difference in the world. Learn about our work and consider giving to help sustain it.
