**PARENTING TIP**  
**Breaking Bread**

There has been an enormous amount of research indicating the essential connections that occur when a family shares a meal together. Take advantage of this knowledge by ensuring your family gathers at least once a day to bond while eating. Don't gather in front of the TV or computer, but in front of each other; sharing thoughts, stories and time. The benefits to everyone will be powerful.

**AUGUST WILL BE A MONTH OF ONLINE REFLECTION, PRAYER AND LEARNING** for youth ministers in the Diocese in preparation for the 2018 Synod "Young People, the Faith and Vocational Discernment". Christina Mines, from the Diocesan Youth Office, invites anyone who ministers to young people (teachers, chaplaincy leaders, pastors, youth ministers, parents, etc.) to participate in "Kickstart 30". Participants register by email and once each day throughout the month of August they will receive an email with a reflection to think and pray about - providing spiritual and professional nourishment in the summer. Consider signing up!

**THE WARPED THINKING OF THE CULTURE OF DEATH**

The fate of little baby Charlie Gard in Great Britain has captured the attention of the world. Baby Charlie was born 11 months ago with a rare genetic disease. He is on life support and the London hospital treating him has petitioned the courts to have Charlie removed from life support, in other words, to end his life.

Charlie's parents, Chris Gard and Connie Yates, have been waging a long and wrenching legal battle to keep him alive.

Facing such a life and death issue is so devastating for any family member, and all the more painful for the parents of an infant.

We now see what St. John Paul II prognosticated over 20 years ago when he wrote about a society that loses its way even to the point of advocating the culture of death over the culture of life. A society that allows for doctor-assisted suicide will have no qualms about allowing a "death panel" to make the ultimate decision of life and death, even against the wishes of parents and loved ones. Doctors in the United States and Italy - at the behest of Pope Francis - have offered to give Charlie a fighting chance. Sadly, the British medical and legal intelligentsia have given up on baby Charlie by forbidding his parents to transfer him outside of the country for alternative treatment. Charlie has so far lived well beyond the three months the doctors originally predicted he would survive. Let us hope and pray that time will not run out before it is too late.

God bless,  
Fr. Peter
