At 8:29 a.m. on Saturday, August 14, 2021, a powerful magnitude 7.2 earthquake struck Haiti's Tiburon Peninsula, about 150 kilometres west of the capital, Port-au-Prince. The damage has been enormous. More than 2,000 have died, thousands are injured and many more thousands have been left homeless.

Once again [Development and Peace is helping Haitians](#). Please consider making a generous donation today.

**THE CHRISTIAN TREE**

If a Christian were a tree, what should it look like?

It would have roots that grow downward. Roots help with strength and stability. Roots also bring nutrients to the tree. Deeply rooted in the Scriptures the Christian can stand strong.

It would be healthy inward. A tree must be healthy from the inside out. Spiritual health for the Christian begins with the heart.

It would stretch up ever upward. A tree is always growing, stretching its leafy branches toward the sky. The Christian must ever be growing toward and pointing to heaven.

It would produce fruit outward. A fruit tree yields much produce. The Christian is to be productive in good works and fruit of the Spirit.

*"Blessed is the man who trusts in the LORD, and whose hope is the LORD. For he shall be like a tree planted by the waters, which spreads out its roots by the river, and will not fear when heat comes; but its leaf will be green, and will not be anxious in the year of drought, nor will cease from yielding fruit" (Jer. 17:7-8).*
