RENOVATIONS

Phase II of our renovation project is scheduled to start shortly. This time we will be tackling the water problem in the elevator shaft and in the washrooms. Our main concern is the south-west corner of the building. We will be going down to the foundation level in order to patch any cracks that are there. We will be trying to fix the drainage problem that will take the water away from the building and the foundation and we will put new sealant on the foundation. It is estimated that this project will take approximately 3 weeks. The project has been delayed because of necessary permits from the City of Cornwall.

The lighting in the front of the church is scheduled to begin on 25th July. During the time of the renovations, access to the church by the rear door will be available only on Saturday's and Sundays. On the other days, for safety reasons, we will have restricted use of those entrances. Thank you for your cooperation.
