THANK YOU!

Some of you have probably noticed that we have done extensive work on the lighting for the interior of the church. The lights in the church were halogen lights that were not only expensive to buy, but expensive to maintain; they used a considerable amount of power. The Finance Council decided to change them to LED which have a longer life span and are more efficient in energy use. All the lights in the church have now been replaced and our power consumption will be considerably less. The project cost us \$3,605.98, and thanks to the generous donation of a parishioner, more than half of this figure has been covered. Fr. Kevin and the Finance Council would like to thank this parishioner for their generous gift to our parish.
