WHAT YOU CAN DO TO CREATE A CLIMATE OF CHANGE!

Development & Peace's new campaign asks us to take action on climate change.

There are many ways in which you can contribute to reducing the carbon emissions that are causing global temperatures to rise and are creating climate-related disasters such as droughts and typhoons. Even small changes in your everyday life can make a big difference. Did you know that one bus replaces 50 cars on the road? Or that fruit produced locally will use 10-20% less gas in its transportation? By reducing your carbon emissions you are showing your solidarity with the most poor and vulnerable in the Global South affected by climate change.
