K OF C - GENERAL MEETING - Tuesday, 10th November 2015 at 7:00 p.m. in the Parish Hall.

CONGRATULATIONS! - To Zackary Morin Bergeron who was baptized here last week, and to his parents and godparents.

REQUIESCAT IN PACE - For the repose of the souls of ALICE PECORE, mother of Sherry O'Keefe; and DAPHNIE DEVRIES, sister of Sharon Westley. May the Lord Jesus welcome them into His kingdom of light and peace.

PARKING - In the last few weeks, some of our parishioners have complained that it is difficult to enter our parking lot on the west side of the church because people are parking in the driveway and because of the business of the restaurant next door. Therefore, we would respectfully request that you use the parking lot rather than the driveway to park your vehicles when you come to mass. As many of you realize, the traffic on Second Street seems to be busier now because Brookdale is still closed for southbound traffic, therefore, when people are trying to get into the parking lot, if there are cars parked in the driveway, they have to go completely around the block. Your help in this matter would be greatly appreciated.

A heartfelt 'Thank You' is extended to Father Kevin and parishioners for hosting the Adopt-a-Priest/Deacon "Daisy Mass" for the Diocese last month. Thank you to all who served in the various roles at the Mass and later at the reception. You helped to make it a beautiful and successful celebration! God Bless You!

Development and Peace

CLIMATE CHANGE IS AN ISSUE OF JUSTICE!

The most poor and vulnerable in the Global South suffer the most from the impacts of climate change, yet they are the ones who contribute the least to the carbon emissions that are warming the planet. Did you know that Canada has carbon emissions that are 150 times higher per capita than Ethiopia, one of the countries in the world that suffers the most from drought conditions exacerbated by climate change. Pope Francis reminds us of our responsibility to act in his encyclical *Laudato Si*. "The pace of consumption, waste and environmental change has so stretched the planet's capacity that our contemporary lifestyle, unsustainable as it is, can only precipitate catastrophes, such as those which even now periodically occur in different areas of the world. The effects of this imbalance can only be reduced by our decisive action, here and now."

Take part in Development & Peace's campaign 'Create a Climate of Change' to do your part!
