PARENTING TIP : As parents, we love our children unconditionally, but the tasks involved are still challenging. There are many moments when our children can annoy us, test us and even defy us! Our response can be the difference between positive learning and damage to our relationship. What is a parent's best strategy? Learn to pause between the time a problem occurs and the time you respond. Take a moment to count to ten, take a deep breath, close your eyes, say a quick prayer, or take your own time out. When you are calm and collected, address the issue in the way you feel will work best to solve the issue, not one based on high emotions. (Family Ministry Office)
