ROSARY & PRAYERS DURING OCTOBER:

As to how the rosary started, most historians agreed it evolved gradually. The monks during the early times have already started praying by reading the 150 psalms, which is also develop into the liturgy of the hours. But most people by then could not read and write, much less they did not possess the bible or at least the book of psalms. In place of the psalms people started to pray the Hail Marys substituting the 150 Psalms. Being a shortened simplified breviary, even today it is still called Mary's Psalter! Then it was believed that its devotion was spread by the Dominicans. "According to an account by fifteenth-century Dominican, Alan de la Roch, Mary appeared to St. Dominic in 1206 after he had been praying and doing severe penances because of his lack of success in combating the Albigensian heresy. Mary praised him for his valiant fight against the heretics and then gave him the Rosary as a mighty weapon, explained its uses and efficacy, and told him to preach it to others." (catholicculture.org) From then on more and more religious congregation spread its devotion and more Catholics have experience the efficacy of praying the rosary in their lives!

Our Blessed Virgin Mother herself has asked us in her apparitions to pray the rosary daily for the conversion of sinners and of the world! She who is already in heaven knows what is best for us. She encouraged us with the rosary because it is a Christocentric prayer. All its mysteries revolve around the life of Jesus. As we pray it, we are not only praising the Blessed Virgin Mary with the words of the angel Gabriel but we are also petitioning the Father to hear us while at the same time we have the opportunity to reflect upon the events of the life of our Lord Jesus.

Let us then pray the rosary daily, especially praying together with your family and during this Month of the Rosary! Excerpt from: stmichaelgirard.com/

The Billings Ovulation Method uses a woman's unique signs to indicate fertility or infertility regardless of her length or regularity of cycles. It is backed by decades of scientific research, and yes, there is an app for it! The next clinic is Monday, October 22 at St. Paul the Apostle Church from 7-8 p.m. (Patio entrance).
