**Parenting Tip of the Month:** November is the month where we remember soldiers who have died for our country and provided us with our freedom. This is a great time to talk to our children about the true meaning of freedom and how it allows us to participate in our faith - both within the parish and at school. Authentic freedom means knowing how to live in a world that offers so many choices, many not good for us. The Catholic faith can provide a rich road map for our life journey; help your children to navigate life using their faith as a GPS, knowing it holds a promise for salvation. (From: Teresa Hartnett, Family Ministry Office, 905-528-7988 ext. 2250)

**Marriage Tip of the Month:** The Three Dog Nights singing group had a hit that contained the following: "One is the loneliest number that you'll ever know. Two can be as bad as one it's the loneliest number since the number one." When it comes to marriage, coming together as two is not meant to be lonely, it is meant to be life-giving, joyful and a shared partnership. Talk as a couple and find out if loneliness is being experienced by one or both of you - don't ignore the feelings. Plan to share on a more intimate level the "stuff" of life; spend time together engaging in activity; be specific about what you need so you will not feel lonely in your marriage - combatting loneliness is vital if you want to recapture the joy and meaning of your married relationship. (From: Teresa Hartnett, Family Ministry Office, 905-528-7988 ext. 2250)

### GOOD NEWS ABOUT TOXINS!

In 2009 the Canadian Medical Association called for a ban on the household use of triclosan citing concerns that the chemical may be contributing to the spread of antibiotic resistant bacteria ("superbugs"). The good news is that recently Proctor & Gamble announced it will discontinue the use of controversial chemicals phthalates, and triclosan from all its products by 2014. Research shows that wastewater treatment plants are unable to filter the chemical out of the water. Phthalates are often found in cosmetics & fragrances & are endocrine disruptors. Their use has been linked to everything from lower sperm counts and low testosterone in men, autism, breast cancer and testicular cancer. Walmart U.S. also committed to reducing or eliminating 10 chemicals in the products it sells and for its suppliers to disclose the ingredients in their products. Suppliers will be required to provide online public ingredient disclosure by January 2015. Companies are listening and both of these announcements happened because of the efforts of people like you. We have the right to know what's in the products we buy, so we can make informed purchasing decisions and reduce our exposure to toxic chemicals.
