For Your Information

World Health Org. "Definition of Palliative Care"

"Palliative care is an approach that improves the quality of life of patients (adults and children) and their families who are facing problems associated with life-threatening illness. It prevents and relieves suffering through the early identification, correct assessment, and treatment of pain and other problems, whether physical, psychosocial or spiritual."

Horizons of Hope:

A Toolkit for Catholic Parishes on Palliative Care

These workshops are designed for parishioners — to help each of us: caregivers, the sick and dying, and family members, to find support and concrete assistance.

Gathering together to learn, and share meaningful conversations to better understand palliative care and end-of-life issues, so that our parishes and families become Compassionate communities, rooted in the mercy and tenderness of the living Christ.

February 2024; Tuesdays at 7:00 p.m.
